

# Homeschool x AI

**Team Mango:** Christina Kwak, Nathan Marks, Claire Muscat, and Grace Zhang

# Finding #1

Accessibility is currently a big problem in EdTech

Duolingo Max as a case study:

- Limited launches only in Western countries
  - US, Great Britain, Ireland, Canada, Australia, and New Zealand
- Lack of translation capabilities
  - Only offered in Spanish and French

## Finding #2

How do we emulate human-human interaction that exists between a teacher and a student via AI?

- Turing Teacher
  - Address attributes of students
  - Facilitate meaningful group interaction
  - Help students adapt to their environments

## Finding #3

AI for educators is powerful but not yet tailored for homeschooling.

Khanmigo as case study:

- Curriculum generation for full classes
- No mention of educator development
- No mention of individualized lessons
